INDEX

TOMUS XXVIII

<i>Balázs, Catherine</i> , Approximative representation of Fourier transform	153
<i>Basu, A. K.</i> , On the rate of convergence to normality for sums of dependent random variables	261
<i>Beesack, P. R.</i> , On integral inequalities of Bihari type	81
<i>Bell, H. E.</i> , Some commutativity results for periodic rings	279
<i>Beyl, F. R. and Hanna, A.</i> , Ext(\cdot , \mathbb{Z})-reproduced abelian groups are finite	267
<i>Bican, L.</i> , Corational extensions and pseudo-projective modules	5
<i>Boisen, M. B. and Sheldon, P. B.</i> , A note on pre-arithmetical rings	257
<i>Dinh Van Huynh</i> , Über einen Satz von A. Kertész	73
<i>Dube, K. K. and Upadhyay, M. D.</i> , Almost contact hyperbolic- (f, g, η, ξ) structure	1
<i>Edenhofer, J.</i> , Cauchy'sche Integralformeln analytischer Funktionen auf Algebren	285
<i>Endl, K.</i> , Eine Bemerkung zum Satz von Favard über orthogonale Polynomsysteme	359
<i>Felgner, U.</i> , Einige gruppentheoretische Äquivalente zum Auswahlaxiom	13
<i>Fenyő, I.</i> , Remark on a paper of C. T. Ng	301
<i>Finkelstein, H.</i> , Numerical relationships in direct products of groups	41
<i>Folledo, M. and Vincze, I.</i> , Some remarks to a paper by E. Csáki and G. Tusnády on the ballot theorem	177
<i>Gardner, B. J. and Stewart, P. N.</i> , Reflected radical classes	293
<i>Гохберг, И. Ц. и Хайниг, Г.</i> , Результантная матрица и ее обобщения	189
<i>Хайниг, Г. и Гохберг, И. Ц.</i> , Результантная матрица и ее обобщения	189
<i>Halász, G.</i> , Remarks on the remainder in Birkhoff's ergodic theorem	389
<i>Halász, G. and Székely, G. J.</i> , On the elementary symmetric polynomials of independent random variables	397
<i>Hall, R. R.</i> , Note on a theorem of Pólya and Catherine Rényi	69
<i>Hanna, A. and Beyl, F. R.</i> , Ext(\cdot , \mathbb{Z})-reproduced abelian groups are finite	267
<i>Hauger, G.</i> , Aufsteigende Kettenbedingung für zyklische Moduln und perfekte Endomor- phismenringe	275
<i>Heppner, E.</i> , Über ein Problem von J. M. Ash, P. Erdős und L. A. Rubel	299
<i>Хо Тхо Кай и Куш, О.</i> , Исследование одного интерполяционного процесса. III	157
<i>Хо Тхо Кай и Куш, О.</i> , Об одном методе приближения непрерывных периодических функций тригонометрическими многочленами	367
<i>Хо Тхо Кай и Куш, О.</i> , Об одном методе приближения непрерывных функций многочленами	401
<i>Indlekofer, K.-H.</i> , Automorphismen gewisser Funktionenalgebren. II	305
<i>Janowitz, M. F.</i> , On the „del” relation in certain atomistic lattices	231
<i>John, K. and Zizler, V.</i> , A note on renorming of Banach spaces decomposable into certain operator ranges	247
<i>Kaya, A.</i> , On a commutativity theorem of Luh	33
<i>Куш, О. и Хо Тхо Кай</i> , Исследование одного интерполяционного процесса. III	157
<i>Куш, О. и Хо Тхо Кай</i> , Об одном методе приближения непрерывных периодических функ- ций тригонометрическими многочленами	367
<i>Куш, О. и Хо Тхо Кай</i> , Об одном методе приближения непрерывных функций много- членами	401
<i>Leavitt, W. G. and Watters, J.</i> , Special closure, M -radicals, and relative complements	55
<i>Ligh, S. and Luh, J.</i> , Some commutativity theorems for rings and near rings	19
<i>Lovász, L.</i> , On some connectivity properties of Eulerian graphs	129

<i>Luh, J. and Ligh, S.</i> , Some commutativity theorems for rings and near rings	19
<i>Luh, W.</i> , Kompakte Summierbarkeit von Potenzreihen im Einheitskreis	51
<i>Luh, W. and Schroeter, G.</i> , On the absolute convergence of lacunary orthonormal series	89
<i>Mader, A.</i> , Finite order extensions of a primary group by a torsion-free group	335
<i>Mathur, K. K. and Saxena, R. B.</i> , The rapidity of convergence of quasi-Hermite—Fejér interpolation polynomials	343
<i>Mishra, B. P. and Singh, D.</i> , Note on a theorem of Bosanquet	225
<i>Moór, A.</i> , Über allgemeine Übertragungstheorien in metrischen Linienelementräumen	321
<i>Nathanson, M. B.</i> , Difference operators and periodic sequences over finite modules	219
<i>Petrushev, P. P.</i> , On the rational approximation of functions with convex r -th derivative	315
<i>Rachunek, J.</i> , On extensions of orders of groups and rings	37
<i>Saxena, R. B. and Mathur, K. K.</i> , The rapidity of convergence of quasi-Hermite—Fejér interpolation polynomials	343
<i>Schipp, F.</i> , On the dyadic derivative	145
<i>Schroeter, G. and Luh, W.</i> , On the absolute convergence of lacunary orthonormal series	89
<i>Sheldon, P. B. and Boisen, M. B.</i> , A note on pre-arithmetical rings	257
<i>Shores, T. S.</i> , A topological criterion for primary decomposition	383
<i>Singh, D. and Mishra, B. P.</i> , Note on a theorem of Bosanquet	225
<i>Smyth, C. J.</i> , Some inequalities for certain power sums	271
<i>Stewart, P. N. and Gardner, B. J.</i> , Reflected radical classes	293
<i>Sultan, A.</i> , Hausdorff compactifications and Wallman spaces	253
<i>Swaminathan, V.</i> , A note on the Valiron method of summability	211
<i>Székely, G. J. and Halász, G.</i> , On the elementary symmetric polynomials of independent random variables	397
<i>Сюч, А.</i> , Группы кобордизмов l -погружений. II	93
<i>Tandori, K.</i> , Über die Lebesgueschen Funktionen	103
<i>Tandori, K.</i> , Weitere Bemerkungen über die Konvergenz und Summierbarkeit der Funktionenreihen	119
<i>Tippenhauer, U.</i> , Über eine Klasse von L -Spline-Funktionen	241
<i>Upadhyay, M. D. and Dube, K. K.</i> , Almost contact hyperbolic- (f, g, η, ξ) structure	1
<i>Úry, L.</i> , On relative universal embedding spaces	181
<i>Vértesi, P.</i> , On a problem of J. Szabados	139
<i>Vértesi, P.</i> , Comparison of Lagrange- and Hermite—Fejér interpolations	349
<i>Vincze, I. and Folledo, M.</i> , Some remarks to a paper by E. Csáki and G. Tusnády on the ballot theorem	177
<i>Watters, J. and Leavitt, W. G.</i> , Special closure, M -radicals, and relative complements	55
<i>Woodall, D. R.</i> , Maximal circuits of graphs. I	77
<i>Yahya, S. M.</i> , On cogenerators in abelian groups	25
<i>Zizler, V. and John, K.</i> , A note on renorming of Banach spaces decomposable into certain operator ranges	247
